

## Justice Court Doings

### Business is Brisk in the Local Justice Offices.

#### The Usual Payday Harvest

Escaped By Their Honors—Haps at Laurium—An Unusual (1) Occurrence on Sunday—Notes.

The police officers of the village and adjoining locations had their hands about full last Saturday night chasing the various disturbers of the peace. In Steve Rebovich's saloon on Portland street, a free for all fight was going on early in the evening and it took about all the officers could do to stop it. About 10 o'clock the disturbance became so bad that the police were informed by neighbors, and Officer Stukle attempted to put a stop to the racket. He was not in the place long when Officer Murphy was summoned. They finally succeeded in arresting one man, and this ended the trouble and the saloon closed up for the night. The man arrested gave his name as Mike Borzoc and he was up before Justice Fleisher yesterday. He pleaded not guilty to making a noise and disturbance. Warrants are out for the arrest of several others, who were in the saloon at the time, on the same charge and the whole outfit will be tried at once.

Officer Stukle also arrested a couple of young fellows named Fred Kekai and James Parsons for creating a noise and disturbance on Saturday night. They were up before Justice Curtis last night and pleaded guilty, paid a fine of \$5 and costs each. They were making a racket late on Saturday night, near the corner of Sixth and Oak streets and kept it up until they reached the H. & T. L. railroad crossing, when the officer arrested them. Another fellow who was near fired a revolver in the air, and a warrant is out for his arrest for carrying concealed weapons.

Officer Murphy arrested a man named Charles Johnson Sunday night for making a noise and disturbance on the street late at night and he was languished in the village lockup until yesterday when he was brought before Justice Curtis. The man's face was in a bad condition, having a black eye and a couple of other marks that showed clearly that he had been in some sort of a row and evidently had gotten the worst of it.

He told a sad tale of a big family living at Dollar Bay without a mother and how he had come to Calumet to get some one to do his housework. His story touched the honor's heart and he let the man off with a promise to pay the costs. Another man was arrested on the Calumet location last night for creating a disturbance and he will be brought up this afternoon.

Reports of a disturbance at Yellow Jacket and one or two other places have come in, and one or two boarding houses are on the dockets to be disposed of tomorrow or this evening.

#### Laurium Notes.

Notwithstanding the fact there are several cases of diphtheria about Calumet the Laurium village health officer has no cases reported and very few of any contagious disease. There was quite an epidemic of measles some time ago, but it is all over now.

W. H. Roberts, of the Laurium pharmacy, is unable to attend to his duties on account of illness.

The regular renting of pews at Sacred Heart church took place last Sunday and all the pews in the lower part of the church were allotted for another term. The renting of the pews in the gallery will take place next Sunday. The pews were rented higher than at any time for years, probably on account of the talk of erecting the new church.

The police officers here had no trouble Saturday night or last Sunday and no cases of disturbance were reported at the justice office.

The fountain at the drug store has been taken down and shipped to the factory of Charles Lippincott & Co., the soda water apparatus firm. G. S. Beck, worth of that firm, was here lately and sold the store a new one, which will be put in in the spring. The new fountain will be a fine one and as good as any in the city.

#### Couldn't Have Been on Sunday (1)

We were yesterday informed that one afternoon last, our informant said it was last Sunday afternoon, but that could scarcely be, as saloons should be closed on that day, he was near Rebovich's saloon, in Portland street, when suddenly the door opened and a man was pitched, head foremost, about ten feet into the street and the door instantly closed upon him. The man had no sooner gathered himself up than he rushed at the door, but as it resisted his attempt he made another lunge at it—this time with better success, as the panels gave way. Upon this, he started to run, but being overtaken by the crowd who rushed out of the saloon after him, they handled him pretty roughly and again tossed him a considerable distance, and in the fracas they made, so our informant said, sufficient noise to even wake up the officers, but, he said, it did not appear to have done so, or they surely would have put in an appearance, which, he said, they did not do.

#### Just Out.

There is a good story told on a young man hereabouts, who is noted for his connection with the free silver side of the present political campaign. Whether it is true or not, we do not know, but it is interesting anyway. During the progress of a silverite rally at Lake Linden

the young man referred to was making a speech and, in order to bring out the fact that Lake Linden was a red-hot silver town, he shouted during his speech, "What is Lake Linden noted for?" In order to make the fact still more vivid, he repeated the question with an oratorical ability that would have done credit to Bryan himself.

Almost before he had finished the question, some wag in the back of the hall shouted "Bosh's beer!" and the audience appreciated the joke. The man was put out, and the speechmaking went on without further interruption.

#### The Position of the Tickets.

The prohibition party of the State claimed that their ticket should be placed second on the ballot, and as the commissioners of Wayne county refused to place it there, they went to the supreme court for a mandamus and County Clerk Shields this morning received a telegram announcing that the republicans should have first place, the prohibitionists second and the placing of the other tickets should be left to the decision of the various county boards.

#### Ladies Are Invited.

As the ladies are taking so much interest in affairs this campaign, President LeGendre, of the Bryan Silver club, with his usual gallantry where ladies are concerned, will have some seats especially reserved for them, but of course those with escorts will not be separated from them, and he requested us to extend a most cordial invitation to ladies to be present at the meeting this evening and at any of the meetings during the campaign.

From the number of visitors to the restaurant annex at the Auditorium on Sunday afternoons it would look as if many families were in the habit of only having two meals on Sundays and in consequence the hunger of the members of these families caused the rush to the annex, where they went to appease their hunger. Of course it could not be their thirst—the Auditorium proper not being open at that time.

A reception was tendered Mr. James Glanville at the Lake Linden Opera House last evening, which was a very pleasant affair. About thirty couples attended, dancing being the principal amusement. Mr. Glanville leaves tomorrow for Arizona for the benefit of his health and takes with him the best wishes of a large circle of friends.

#### Knitting Done.

Having been appointed sole agent for the Gearhart's knitting machine I am in a position to sell the machines or will be glad to take orders for knitting socks, stockings, mitts, etc., which will be found much cheaper and better than those usually sold. Apply to Mrs. Sam Rickard, 177 Tamarack location.

Work on the basement of Slattery & Ryan's livery barn is going right along and most of the excavating has been completed. The men found many obstacles to hinder them in the work, such as huge stumps of old trees and large rocks. The barn will be in much better shape when Contractor Butler completes his job.

#### Twenty Head of Horses for Sale.

Having just arrived from the west with twenty head of horses, I am anxious to dispose of the same at the purchasers' own prices. Among them are some matched driving teams and single drivers. They can be seen at the Taylor House barn. W. B. Buons.

Mr. Gonzalez, a traveling salesman for a Grand Rapids tobacco firm, is in the copper country on business. Mr. Gonzalez is a Cuban, who has had experience in Cuban rebellions. He took an active part in a ten-years' war and was obliged to leave the country on account of his activity in behalf of the rebels.

LOST, STAYED OR STOLEN—A big dark red cow, with white stripes on forehead and large and widely spread horns, the ends of which are sawed off; also has an iron collar and bell. The finder will be liberally rewarded by returning same to F. A. Pekala, 3145 Tunnel street, Swedetown.

#### Calumet Tent, No. 218, E. O. T. M.

On next Thursday evening, October 22, the newly organized tent of Laurium village will be instituted by Calumet Tent, No. 218. As it is expected that over thirty candidates will be on hand it is hoped that the members of Calumet Tent will turn out in large numbers.

Next Friday evening occurs the social dance to be given by Lady Willard Hives, Ladies of the Teated Maccabees, and from all indications it will be largely attended. Karkett's Ideal orchestra will furnish music for the event.

STRAYED OR STOLEN—A red horse, about 1,000 pounds, was taken or strayed away from my barn on Saturday night. The finder will be rewarded by returning it to Angelo Yotti, Lake Linden road.

There will be a chicken pie supper at the Calumet M. E. church, Saturday evening, October 24, under the auspices of the Ladies' Aid society. Supper will be served from 5 until 10 p. m. Tickets 25 cents.

#### MAKING OF PINS.

Of the Modern Machines Will Turn Out Eight Thousand an Hour.

There is scarcely a woman living who does not use the common and everyday pin every day more or less, but few, however, ever think how it is made. To complete a pin it has to go through many hands before it is ready for the consumer. It is a very delicate article to handle, and the cost of building the machines to make it is the greatest outlay. The wire from which these pins are manufactured is specially prepared and comes to the factory on large reels very much like gigantic cotton spools. The wire is first turned through eight or ten little copper rollers. This is to get all the bend and kink out of it—in other words, to straighten it perfectly. After this preliminary operation is completed it is once more wound on a very large reel, which is attached to the machine that makes the pins. One of these machines makes on an average 8,000 pins an hour, and some large factories will often have 50 or 40 machines at work at one time. After the pins are released from the grip of this machine they are given a bath of sulphuric acid. This removes all the grease and dirt from them.

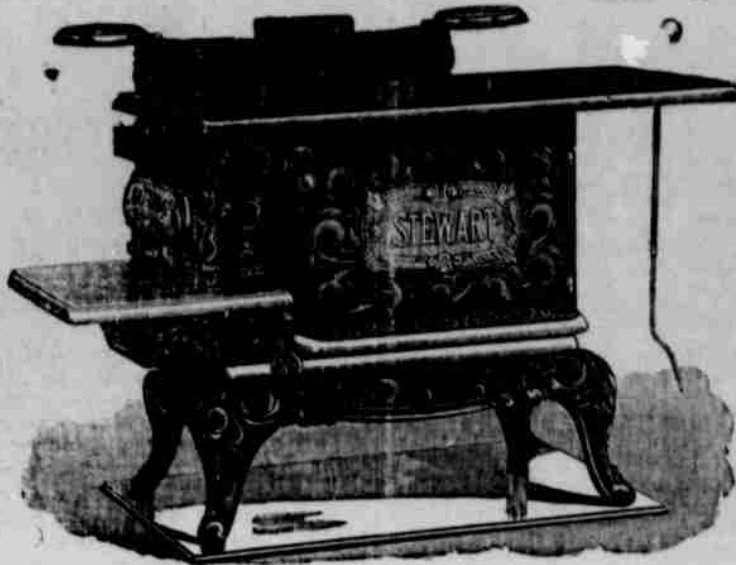

They are then placed in a tub or barrel of sawdust. Pins and sawdust are next taken together from the barrel and allowed to fall in a steady stream through a strong air blast, which separates the sawdust from the pins. But as yet they are pointless, and pins without points would not be of much use. In order to point them they are carried on a endless groove belt which carries a set of rapidly moving files. This points them roundly, and after being passed between two grinding wheels and forced against a rapidly moving band faced with emery cloth they are dipped in a polishing tub of oil. This latter is a large, slowly revolving copper lined tub, which is tilted at an angle of about 45 degrees. As this revolves the points keep sliding down the smooth copper to the lower side, and owing to the constant friction against the copper and each other receive a brilliant polish and finish.

They go next to the sticker, where they fall from a hopper on an inclined plane, in which are a number of slits. The pins catch in these slits, and hanging by their heads, slide down to an apparatus which inserts them in the paper. This machine is, perhaps, the most ingenious of all the beautiful and complicated contrivances that help to make and manipulate the pin. It does all this at the rate of 100,000 pins an hour, and yet a single bent or damaged pin will cause it to stop feeling until the attendant removes the offender. The pins are then stuck into the papers by a machine, which is usually operated by a skilled girl, and then they are ready for shipment to all parts of the civilized world where the common but necessary pin is a factor.—Dry Goods Economist.

#### Cargoes of Dead Cats.

Liverpool receives some curious cargoes at times—cargoes of turtles and other live and dead animals, casks of leeches, shiploads of bones from battlefields, of human mummies from the Egyptian tombs and of dead cats from the cat cemeteries of the same country.

## Stewart Ranges, Cooks, Heaters.

They are praised by their hundreds of users in this locality. Why? Because they embody every improvement in stove construction and are sold at low prices and easy terms.

#### For Clubwomen Only.

A man, it seems, has been looking into the woman's club scheme, and he epitomizes his research by some questions which are worth reprinting from the Boston Transcript:

"Are you enough of a scholar not to prepare your paper on the classic varieties of architecture by the simple process of copying word for word from the encyclopedia?"  
"Are you enough of a gentleman not to drag in family anecdotes when asked to say a few words on the Transvaal or the place of modern French music?"  
"Are you enough of a logician to manage to keep somewhere near the subject under discussion when making an address?"  
"Are you enough of an artist to enjoy the pretty frocks of the rich members of the club without envy, hatred, malice and all uncharitableness?"  
"Are your children all so old that nursery cares need never interfere with the meetings of the club?"
